

# What's In The Works!

## Our Team Grew In 2007!

We're proud to welcome these talented associates.

### Springfield Office

April Brennan  
Natalie Hines  
Steve Hunter  
Brandon Thornhill  
Kassia Travers  
Willie Welch

### Kansas City Office

Nicole Ledford  
Joey Maloney  
Gary Murphy

## EWI Community Care

EWI staff give substantially of their time, talent and donations to help nonprofit, community, and professional organizations. Many employees take leadership roles on nonprofit boards and committees, such as the Springfield Area Chamber of Commerce, Habitat for Humanity, Sigma House, Greyhound Pets of America and Springfield/Greene County Environmental Advisory Board.

**"I think it is important for us to give back to the community. I believe you can make a difference, but you have to be involved."** EWI Company President, Robin Melton said (pictured at right).

## EWI Special Events & Awards

December 2007

### 15 Year Anniversary Caribbean Cruise

To celebrate the milestone of 15 successful years in business, EWI President, Robin Melton took each of her employees, plus a guest (84 people total) on a 4 day/3 night Royal Caribbean Cruise in October. For Robin, taking her employees on the bonus trip was to recognize and praise their everyday efforts which have been instrumental in the company's growth and achievement.

### Suzan Gonder Receives Railroad Silver Spike Award

In June 2007, Suzan Gonder, Principal Scientist and Division Manager of Railroad Services was presented with the 2007 Silver Spike Award for Outstanding Performance by BNSF Railway Company. Gonder has worked closely with BNSF's Jennifer Hurley who said, "EWI is a long-time partner of our company. Their personalized service and expert negotiation skill has really made a big difference for me. Most important, we trust each other."

## EWI Project News

### Statewide Hazardous Substance Services Contract

EWI was awarded an estimated \$1.5 million contract by the State of Missouri for hazardous substance cleanup and disposal services. Under the contract, EWI will provide emergency response services for the Department of Natural Resources and non-emergency services for various state agencies.

### New Guzzler Added to EWI Fleet

## Chemical Spill Response

In October, EWI emergency crews responded to a toxic chemical release near Kansas City for a railroad client. "Response operations and cleanup of the site were very challenging, due to the special hazards associated with the chemical," said Paul Dial, KC Regional Office Manager. With the majority of the cleanup complete, site monitoring will continue through the end of the year.

## Bass Pro Shops Environmental Program

EWI implemented a nationwide environmental program for its longstanding client partner, Bass Pro Shops, Inc. Aided by Virtual Task Manager (VTM), a web-based software package developed by EWI for tracking environmental and maintenance tasks, EWI provides a full range of environmental services to BPS across the U.S. and Canada. The dedicated support of the BPS management team and EWI's extensive experience has made the program a huge success!
